

INSTRUCTIONAL GUIDE:

How to produce digitised images as positives for the screen printing ultra violet exposure process.

ABOUT:

The Screen Printing Studio offers students and staff quality **click & collect** printing services for screen printing with the Epson SureColor T3200 24" and the Computer-to-Screen (CTS) M&R i-Image S™. Both machines are based on campus and can quickly generate rich opaque black images (**positives**) for ultra violet exposure. For a small cost, users can conveniently produce their digital images and designs at a professional screen printing standard.

FILM POSITIVES:

The Epson SureColor T3200 24" film printer can print images **as large as A1 size** on transparent film, to be used as a positive in the screen printing exposure process. Images printed on film can be exposed more than once - meaning **you can reuse film positives for subsequent exposures of the same image**.

CTS POSITIVES:

The M&R i-Image S™ Computer-to-Screen (CTS) printer can print images **up to 440mm x 540mm** directly onto the silk screen mesh that has been pre-coated with UV Photo Emulsion. This state-of-the-art inkjet technology creates a **'one-time-use' positive** for the screen printing exposure process - **meaning images printed via CTS can only be exposed once**.

IMAGE PREPARATION:

Before submitting your image files for printing, it's very important to prepare your digital images with these basic specifications:

- **Photoshop** is highly recommended; it will produce the most successful results.
- Size your image to your desired screen print dimensions.
- Images must be saved in **Grayscale Mode**. Not RGB or CMYK.
- Images will print best if they're submitted as **PSD, PNG, or PDF files**. Not JPEG or TIFF.

SUBMISSIONS:

You can submit your images for quotation and printing via the <https://www.making.unsw.edu.au> website. Use either the [Film Printer Form](#) or the [CTS Printer Form](#) located on The Making Centre's Click & Collect page. **Multiple images can be uploaded in a single form as a ZIP folder.**

COSTS:

- **A5 = \$2.50, A4 = \$5.00, A3 = \$10.00, A2 = \$20.00, A1 = \$40.00**
- You will receive an invoice via your student/staff email with an easy link to pay online.

COLLECTIONS:

- Printed positives can be collected at the screen printing exposure room (GG03).
- Contact Screen Printing Making Centre staff for help at artdesignscreenprint@unsw.edu.au
